givejedahand

givejedahand The #Curse of #MentalHealth is #CAMH #Psychiatry. Certainly also the #curse of #Parkdale #QueenWest and all #Toronto. What #transforminglives is really all about - the #concrete #condo #wasteland #gutted neighborhoods and homelessness. It's #drugs and #genetics exploited to drug you even more and #worse #hardware that doesn't work either, after the drugs fail. It's premised on the #conceit that they're #God and you're a #disease. They don't even talk about #curing you any more. Dr #Rat Brain Sean Hill over at #Krembil #Neuroinformatics talks about #preventing - #schizophrenia? #schizophrenics?! In the #streetsoftoronto we know that means #destroying. #Streetphotography Is a record of the world they're destroying.
